2017-03 - 2018-03

Senior Document Controller " Loop Folder "

GS " Engineering and Construction "

At this stage in my life it was really honor to me to work with this multi-international company and take the experience of how big companies in the world working, it was in Oil & Gas industry Project Number " 7T04 ", I have learned too much skills and new experiences that helped me until today and I believe it will always do, I worked as end user on internal company system (UNICSS). also I've took the chance to be a supervisor of the work and reporting directly to Instrumentation head department. and it was a successful chance to be proud of it because of my age & experiences at this time.

2016-03 - 2017-03

Document Controller - QA/QC

ENPPI " Engineering For the Petroleum and Process Industries "

I had the chance to join one of the most leading company in Middle East in the Oil & GAS industry at Project Number " 3655-200 " in while I was study at my University. I've learned how to prepare, operate and update Document Control Procedures, Correcting templates, fonts and style, pagination and numbering and other activities that may be required.

2014-12 - 2016-01

Forex Analyst; Stock market

INVESTIA Company for trading foreign currency

I was working while studying and this experience was a great one as my first step into the professional world, I learned how to analyses and make a reporting to the customer, how to follow the strategy plan, how to handle the customers and update them of currency trading prices.
